

## Different Ways to Eat **Bodega™ Foods** Romesco Sauce

**Have it on a sandwich:** substitute it as a spread on any savory sandwich, panini or wrap.

**Pasta:** use it instead of traditional marinara for more flavour; works with tofu or zucchini noodles too.

**Tacos:** use as your next taco sauce; fairly mild but still bold enough to stand out.

**Soup:** use it to thicken any traditional vegetable-based soup, like tomato.

**Pizza:** great on pita bread or pizza dough, then topped with your favourite cheese and veggies.

**Seafood:** Romesco is traditionally served with seafood; tastes amazing with seared scallops or baked salmon.

**Burgers:** great as a condiment for hamburgers or hot dogs.

**Vegetables:** add some flavour to plain vegetables – cooked or raw.

**Corn on the Cob:** spread on barbequed corn on the cob to liven it up.

**Eggs:** use it on eggs the same way you would ketchup, hot sauce, or sriracha.

**Leftovers:** use it to revive your leftovers or reinvent any classic
